

SPANISH CLASS NEWS FLASH

September 25, 2008

Dear parents,

We have finished our unit on “¿Qué haces tú en la escuela?” Soon your child should be bringing home a mobile that he/she made and some vocabulary sheets. Please take a few minutes to ask questions and read the classwork with your child.

We have begun a new unit on ¿De dónde viene la comida? (Where does our food come from? We will especially be emphasizing plants, their parts and how they grow at first. We will identify which part of the plant different fruits and vegetables come from. We will also do a play, “Sal, semillita, sal” (Come Out, Little Seed, Come Out) about a seed that is reluctant to sprout and come out to see the sun.

Recently, I read the book by Lois Elhert, A sembrar una sopa de verduras (Planting Vegetable Soup). As a follow-up, I would like each class to make vegetable soup from ingredients in their gardens or brought in from home. You will find a response sheet at the bottom of this letter if you can help. It will indicate the items needed and the dates and times for each class. I will call you to confirm. Gracias,

Sincerely,
Maestra Dana

Dana Reginato
